

Cuckoo Clock Legal & Copyright Notice

Developer / Publisher: E.G. van Zeeland
Platforms: iPhone, iPad and macOS
Effective date: 19 August 2026

1. Publisher and Scope

Cuckoo Clock for iPhone, iPad and macOS is published by E.G. van Zeeland. This Legal & Copyright Notice applies to those versions of the App unless a platform-specific notice expressly states otherwise.

2. App Store Licence

Unless a separate custom end-user licence agreement is expressly provided for the App, use of the App is subject to Apple's Standard End User License Agreement applicable to apps distributed through the Apple App Store.

This notice supplements the applicable App Store licence. It does not remove or reduce any mandatory rights that you have under applicable consumer law.

3. Purpose of the App

Cuckoo Clock is a decorative clock and entertainment application. It is intended for ordinary personal use and visual or audible enjoyment.

The App is not designed, certified or represented as a safety-critical, medical, navigational, industrial, emergency, scientific calibration or legally authoritative timekeeping system.

4. Time Display and Accuracy

The App derives its displayed date and time from the operating system and device settings. Its accuracy therefore depends on the time, time zone and related settings maintained by the device and operating system.

The developer does not warrant that the App will provide an independently verified or continuously exact time reference. The App should not be used where an error, delay, device malfunction or incorrect system setting could create a safety risk or other material harm.

5. Sound, Haptics and Notifications

The App may reproduce cuckoo calls, clock sounds or other audio and may use haptic feedback when enabled. Users remain responsible for their device volume, silent-mode settings and the suitability of using audible or haptic features in their surroundings.

6. Display-Awake and Charging Features

Where the App offers an option to keep the display active, particularly while an iPhone or iPad is connected to power, prolonged use may increase power consumption, device temperature and display usage.

Users can disable such functionality and remain responsible for deciding when continuous display operation is appropriate for their device and circumstances.

7. Compatibility and Availability

App functionality may depend on the Apple device model, operating-system version, App Store availability and system capabilities. Future operating-system changes may require App updates and may change or discontinue particular behaviours.

The developer may update, improve, replace or discontinue features where reasonably necessary, subject to applicable law and App Store requirements.

8. Copyright and Intellectual Property

Copyright (c) 2026 E.G. van Zeeland. All rights reserved.

Unless otherwise stated, the Cuckoo Clock software, user-interface design, original artwork, clock designs, animations, seasonal and holiday variations, sound arrangements, documentation, branding and other original App assets are protected by copyright and other applicable intellectual-property laws.

No ownership of those materials is transferred to the user by purchasing or downloading the App. The user receives only the licence rights granted under the applicable App Store licence.

9. Third-Party Rights and Trademarks

Third-party names, trademarks, operating-system names and service marks remain the property of their respective owners. Apple, iPhone, iPad, macOS and App Store are trademarks or service marks of Apple Inc. in the United States and other countries and regions.

Any third-party assets included in the App must be used under the applicable licence or permission. Nothing in this notice grants the user rights in third-party intellectual property beyond those provided by the relevant rights holder.

10. No Unlawful Exclusion of Consumer Rights

Nothing in this notice excludes, restricts or modifies statutory guarantees, remedies or other consumer rights where such exclusion, restriction or modification is prohibited by applicable law.

To the maximum extent permitted by applicable law, the developer is not responsible for indirect, incidental or consequential loss arising solely from use of the App in a manner for which it was not designed or represented.

11. Changes to This Notice

This Legal & Copyright Notice may be updated when the App, its licensing arrangements, legal requirements or included assets materially change. The effective date shown at the top identifies the current version.

12. Contact

Questions concerning Cuckoo Clock, copyright or this notice may be submitted to E.G. van Zeeland through the Contact page on StrataKernel.nl.

Document note: This text is intended for publication with the Cuckoo Clock app and on StrataKernel.nl. It should be reviewed whenever the app's data practices, third-party SDKs, permissions, payment model, or functionality materially change.
